

Hong Kong Statistical Society
Examination Information Seminar cum Certificate Presentation
Ceremony on 10 November 2016

“As Hong Kong develops into a knowledge-based society, statistics has become the essential tool for daily operation and decision making in both business and public sectors. There is increasing demand for qualified statistical professionals in all fields, including in particular finance, risk management, actuary, market research, quality management, etc. Obtaining statistical profession qualifications will greatly enhance one’s competitive edge,” said Mr. FUNG Hing-Wang, Chairman of the Examination Board of Hong Kong Statistical Society (HKSS), in the Examination Seminar cum Certificate Presentation Ceremony held on 10 November 2016.

“The HKSS examination is a recommendable avenue for obtaining qualifications at various levels of the statistical profession.” continued Mr. Fung. He also shared with the audience the importance of acquiring qualifications of the statistical profession.

The HKSS Examination Board is very pleased to see that many people have joined the statistical profession by obtaining qualifications at various levels of the HKSS examination. In the May 2016 round of the examination, 83 candidates took a total of 205 examination papers. So far, 45 candidates have obtained the Graduate Diploma, 79 candidates the Higher Certificate and 68 candidates the Ordinary Certificate.

In the 2016 round of the examination, candidates who have successfully passed examinations at different levels and wished to have their names appeared in the HKSS website are listed below.
